

ERRATA

In the paper “Electrical and Thermal Conductivities of Dense Matter in the Crystalline Lattice Phase. III. Inclusion of Lower Densities” by Naoki Itoh, Hiroshi Hayashi, and Yasuharu Kohyama (ApJ, 418, 405, [1993]), some typographical errors appeared in four of the equations. Equations (43), (44), (45), and (46) should read:

$$I_{\sigma}(u, 180) = \sum_{m=1}^{10} a_m \sin mu + \frac{12.8}{\pi} bu + c, \quad (43)$$

$$I_{\sigma}(u, 5000) = \sum_{m=1}^{10} d_m \sin mu + \frac{12.8}{\pi} eu + f, \quad (44)$$

$$I_{\kappa}^{(2)}(u, 180) = \sum_{m=1}^{10} g_m \sin mu + \frac{12.8}{\pi} hu + i, \quad (45)$$

$$I_{\kappa}^{(2)}(u, 5000) = \sum_{m=1}^{10} j_m \sin mu + \frac{12.8}{\pi} ku + l. \quad (46)$$

The remainder of the paper remains unaffected by these corrections.

We thank T. Bloeker for pointing out these errors.

In the paper “Time Variations in X-Rays from Cygnus X-3 Observed with *Ginga*” by Shunji Kitamoto, Seiko Mizobuchi, Koujun Yamashita, and Hiroshi Nakamura (ApJ, 384, 263 [1992]), there is an error in § 2.3 on page 265. The sentence, “The rms amplitude per unit frequency is less than 0.03% of the mean intensity” should read “The rms amplitude per unit frequency is less than 1.7% of the mean intensity.” No alterations are needed in the rest of the paper.
